

TruScene™ High Transparency Insect Screen

See what you've been missing.
Miss what you've been seeing.

- Nearly **Invisible**
- The **Strength** of stainless steel
- **Protection** against even some of the smallest insects
- Superior **Ventilation**
- Lets more **Light** into your home

With TruScene™ insect screens, the view from your window stays as clear as all outdoors. With **over 50% more clarity** than our standard insect screens, they're virtually invisible and totally innovative. TruScene insect screens are made with a micro-fine stainless steel mesh that's one-third the diameter of standard screen wire to let more fresh air and sunlight in, while keeping some of even the smallest insects out. TruScene insect screens from Renewal by Andersen —they're like nothing you've ever seen.
