SmartSun™ glass

WINDOWS • DOORS  
**Andersen** 

## Introducing SmartSun™ glass from Andersen.

Andersen now offers a glass option on all 400 Series windows and doors that provides you with a desirable balance of high visibility and comfort. We call it SmartSun™ because of the way it cleverly rejects unwanted solar heat while allowing the sunlight to stream through. It gives you another choice in addition to High-Performance™ Low-E4® glass with its sparkling clarity and High-Performance™ Low-E4® Sun glass with its appealing tint. SmartSun also helps protect your furniture, carpets and drapes by blocking out 95 percent of the damaging ultraviolet rays that can cause fading and it can be instrumental in reducing energy consumption. So, now when you choose the glass for your windows and doors, your choice is more clear.

	<b>Andersen® 400 Series High-Performance™ glass options</b>		
<b>Performance Characteristics</b> <small>based on center-of-glass values*</small>	 <b>Low-E4®</b>	 <b>Low-E4® SmartSun™</b>	 <b>Low-E4® Sun</b>
<b>visible light transmitted through glass</b>	<b>72%</b>	<b>65%</b>	<b>40%</b>
<b>ultraviolet rays blocked by glass</b>	<b>84%</b>	<b>95%</b>	<b>84%</b>
<b>solar heat gain coefficient</b> <small>(the lower the number, the less heat gets through the glass)</small>	<b>.42</b>	<b>.28</b>	<b>.26</b>

\* Calculations were developed from Window 5.2a. All glass is 3mm thick, 12.7 mm gap. Energy performance ratings labeled on the product represent total unit performance as certified by the National Fenestration Rating Council (NFRC) and will differ from center-of-glass properties and by product type.
